

PATRIOTS INTERNATIONAL
PROFESSIONALISM. EXPERTISE. KNOWLEDGE.

Patriots International is currently seeking a **Senior Program Integrator** to support our customer at **Redstone Arsenal, AL**.

The position directly supports a customer within PEO Missiles and Space. Interested applicants must possess the specified levels of knowledge and skills in order to effectively perform assigned duties. Additionally, the applicant must be capable of formulating, defining and performing detailed analysis to obtain the objectives for assigned projects. This position requires the ability to obtain and maintain a Department of Defense Secret clearance.

Duties Include, but are not limited to the following:

- Support APM FMS and Futures on all business, financial, contract, logistics and technical management activities associated with ongoing FMS and Futures efforts. This will include coordination with PMO contracts, budget, acquisition and systems engineering teams for develop of independent cost estimates, contracts requirement packages, acquisitions strategies and technical solutions and paths ahead.
- Represent the APM FMS and Futures in situations where the APM is not available.
- Support development of strategic and over-arching internal/external written and verbal communications for on-going activities. This includes weekly Situation Reports, updates to Command and Staff charts, and responses to internal and external taskers.
- Manage and support internal/external coordination and strategic communications with FMS and Domestic partners and internal PMO functional leads/teams.
- Coordinate IPTs, Meetings and Working Groups, develop briefings, agendas, minutes and action items.
- Coordinate foreign disclosure staffing requests for IFMC Hardware Product Office and APM FMS and Futures related products planned for delivery or presentation to leadership and FMS or Futures customers. Ensure products are properly marked according to PMO information security standards.
- Develop and APM FMS and Futures historical archives to ensure activities, briefings and decisions are available for reference and to maintain the PMO/PdO/APM institutional knowledge.
- Assess long-range factors in their potential to affect programmatic or technical progress of the project.
- Provide periodic reviews with appropriate representatives to determine status of overall project and major milestones; ensure coordination of orderly phasing of all actions and cost, schedule, and performance risk; identify alternative risk mitigation approaches; and ascertain appropriate action required to maintain or improve project schedules.

Education and Experience Requirements:

- A bachelor's degree in a relevant discipline.
- 10+ years of applicable experience associated with business, financial, contract, logistics and technical management activities.
- A strong understanding of and experience with Army Integrated Air Missile Defense (AIAMD) systems.
- Good communications skills, people skills, and enthusiasm are essential, as well as the ability to handle a variety of tasks in a team environment.
- The ability to research data, analyze information, synthesize options, and make sound recommendations to staff contractors and government officials.
- Proficiency with Microsoft Excel, Word, and PowerPoint.
- The ability to travel when required.

You will be highly desirable if you have:

- Previous service and experience as an Army Product or Project Manager.
- Previous service as a Department of the Army Systems Coordinator (DASC)
- Previous experience with the Integrated Battle Command System (IBCS), Patriot, Sentinel, Lower Tier Air and Missile Defense Sensor (LTAMDS), Indirect Fire Protection Capability (IFPC) and future sensors and launchers
